All FloraStone® products are wrap with specially designed cardboards to protect the stone against damages while the polyester straps make handling easy and secure packaging.

Installation Method

FloraStone® can be installed onto any structually sound and properly prepared surface.

For masonary walls, ensure that the wall is free from any paint, grease, oil or dirt. Apply mortar onto the entire back side of FloraStone® and remove excess mortar over flowing to the side. Press FloraStone® firmly on the wall and use nails for temporary supports before the mortar harden. Wipe off excess mortar around the edges.

For wooden surface, ensure that the surface is free from oil, dirt or paint. Secure metal mesh (cut to size of FloraStone®) on the surface with galvanised nails or staples. Apply adhesive construction glues or adhesive mortar onto the entire back side of FloraStone® and press firmly against the metal mesh to ensure the glue/mortar has embedded the metal mesh and sticking onto the wood surface. Remove excess glue/mortar around the edges.

All FloraStone® products are marked at the side with individual codes for easy identification!

Technical Specification

25-Year Limited Warranty
FloraStone® products carry a 25-year limted warranty when used on structures that conform to local building codes and installed according to the maunfacturer's instruction. Warranty is limited to replacement of defective materials only. Damages resulting from building settlement, wall movement, force contact, contact with chemicals or paint, discoloration due to airborne contamination, staining or oxidation, will not be covered under the warranty.

Warranty is non-transferable and is only limited to the original purchaser.

Water Repellent
FloraStone® products feature the addition of water-based water repellent that greatly enhances the stone's performance in humid climate. Water repellent is mixed with the composite material during manufacturing, thus providing a more lasting effect then spray, brush or paint method.

Non-Combustible
FloraStone® products show zero flame spread and zero smoke development.

General Properties
Material Composition: Portland Cement, Light-Weight Aggregates and Iron Oxide Pigments.

Physical Properties
Water Absorption : <13%

Open Porosity*: <35%

Compressive Strength*: >12.0N/mm²

Flexural Strength*: >5.0N/mm²

*Test reference to NBN EN 1926 (1999), NBN EN 12372 (1999)
